

IBRAHIM OSMAN

Data Analyst | Monitoring, Evaluation, Accountability & Learning (MEAL) Specialist

ibrahim.mo.osman08@gmail.com | [+201515086116](tel:+201515086116) | linked in: [Ibrahim Osman](#) | Portfolio: [Ibrahim Osman](#) | Cairo, Egypt

Professional Summary

Data Analyst and Monitoring, Evaluation, Accountability & Learning (MEAL) Specialist with 3+ years of experience in data analysis, performance monitoring, impact evaluation, and donor reporting across humanitarian, healthcare, peacebuilding, and climate programs. Skilled in transforming complex quantitative and qualitative data into actionable insights using Python, SQL, Power BI, Tableau, Excel, Air table, Kobo Toolbox, and Dedoose. Experienced in developing MEAL frameworks, designing indicators, creating interactive dashboards, conducting mixed-methods research, and producing evidence-based reports that support strategic decision-making, program improvement, and stakeholder accountability.

Professional Experience

Monitoring, Evaluation, Accountability & Learning (MEAL) Officer | Women's Development and Environment Organization (WDEO) | 2024 – 2026 | Sudan

- Led monitoring, evaluation, accountability, and learning activities for peacebuilding, environmental, and community development initiatives.
- Designed MEAL frameworks, logical frameworks, indicators, data-collection tools, and reporting processes aligned with project objectives and donor requirements.
- Collected, cleaned, analyzed, and interpreted quantitative and qualitative data to evaluate program implementation, outcomes, and impact.
- Developed Kobo Toolbox and Excel-based data-collection and reporting tools that strengthened the consistency and accessibility of program information.
- Drafted monthly reports, donor reports, policy briefs, success stories, and results summaries to communicate project achievements and lessons learned.
- Conducted data-quality reviews to identify missing, inconsistent, or inaccurate records and improve the reliability of reported results.
- Supported qualitative evaluations, assessments, and learning activities by synthesizing stakeholder feedback into evidence-based recommendations.

Data Analytics Lead | Climate Research Analyst | Sudan Climate Collective (SCC) | 2024 – Jan 2026 | Remote • Led data management, research, analysis, and reporting for the organization's civil society needs assessment and climate action research.

- Conducted 22 in-depth stakeholder interviews for the national research report, *The State of Climate Action in Sudan Post War*.
- Organized and analyzed qualitative evidence using thematic research methods to identify institutional gaps, stakeholder needs, and climate-action opportunities.
- Synthesized complex research findings into clear reports and recommendations for donors, civil society organizations, stakeholders, and climate-policy actors.
- Co-authored a technical report examining climate-action gaps, institutional challenges, and opportunities for policy and program development in Sudan.
- Supported evidence-based advocacy by translating research findings into accessible narratives, presentations, and stakeholder communications.

Data Analyst & MEAL Assistant | Youth for Peace Initiative (YPI) | Jan 2025 – Jun 2025 | Egypt • Collected, cleaned, analyzed, and interpreted program data to monitor project performance, service delivery, and beneficiary outcomes.

- Supported the development and implementation of Monitoring, Evaluation, Accountability, and Learning systems, databases, indicators, and reporting processes.
- Designed and maintained data-collection tools and healthcare-related databases while safeguarding data quality, integrity, accuracy, and confidentiality.
- Collaborated with members of the Sudanese community in Egypt to assess healthcare needs and facilitate access to medical services and community initiatives.
- Created reports, dashboards, and data visualizations that enabled program teams to monitor trends and make informed operational decisions.
- Conducted data-quality checks and maintained organized documentation to strengthen reporting accuracy and organizational accountability.

Data Analyst Intern | SQL & Business Intelligence | Mentorless | 2023 | Remote

- Cleaned, transformed, validated, and analyzed structured datasets using MySQL, SQL Server, Python, and spreadsheet

tools.

- Developed analytical projects covering hotel reservations, corporate layoffs, housing data cleaning, and Amazon product price collection.
- Created dashboards and analytical reports to visualize trends, performance indicators, patterns, and business insights.
- Applied exploratory data analysis and data-cleaning techniques to convert raw datasets into reliable, analysis-ready information.
- Documented methodologies, findings, and recommendations to support data-driven decision-making.

Data Analytics Projects

Data Professionals Survey Analysis | Power BI

- Analyzed survey responses from **630 data professionals** to examine salary patterns, technology preferences, job satisfaction, and industry trends.
- Developed an interactive Power BI dashboard that communicated demographic and professional insights through clear visualizations.

Maji Ndogo Integrated Analysis | Power BI, DAX

- Developed relational data models and DAX measures to analyze gender dynamics and crime incidents associated with shared water-access points.
- Created a public-facing dashboard designed to support budget transparency, project monitoring, and evidence-based resource allocation.

Hotel Reservation Analysis | MySQL

- Cleaned and transformed raw hotel-reservation data using SQL queries to improve data structure, usability, and analytical accuracy.
- Explored booking behavior and operational trends to generate business-relevant insights.

Corporate Layoffs Analysis | SQL

- Used SQL to explore corporate-layoff trends and patterns across industries, companies, locations, and reporting periods. • Prepared a cleaned analytical dataset and summarized key workforce trends for reporting and visualization.

Amazon Web Scraper | Python

- Developed a Python-based web-scraping project to collect and organize Amazon product-price data. • Structured the extracted information for ongoing price analysis and trend monitoring.

Tableau Dashboard Portfolio

- Designed Tableau dashboards analyzing COVID-19, Airbnb, and other public datasets.
- Applied data visualization principles to present trends, comparisons, and performance indicators clearly.

Education

Bachelor of Engineering in Agricultural and Biological Engineering

University of Khartoum | Sudan

Skills

Technical Skills

Python | SQL | MySQL | Power BI | Tableau | Microsoft Excel | Power Query | DAX | Air table | Kobo Toolbox | Dedoose
Google Forms | Microsoft Office Suite | Data Modeling | Statistical Analysis | ETL

Core Skills

Data Analysis | Monitoring, Evaluation, Accountability & Learning (MEAL) | Data Management | Mixed-Methods Research
Data Visualization | Dashboard Development | KPI Monitoring | Donor Reporting | Theory of Change | Logical Framework
Development | Indicator Development | Data Quality Assurance

Soft Skills

Analytical Thinking | Critical Thinking | Problem Solving | Communication | Stakeholder Management | Cross-functional
Collaboration | Report Writing | Presentation Skills | Attention to Detail | Time Management | Adaptability |

Decision-Making Certifications

Google Data Analytics Professional Certificate | MEAL D Pro: Monitoring, Evaluation, Accountability & Learning for
Development Professionals | Data Analytics & Professional Development Skills for the Digital Age (ALX Africa) |
Environment, Climate Change & Health for Practitioners and Policy Actors (WHO) | Data Literacy with AI (Solo learn) | Data
Analysis & Action Plan (Disaster Ready) | Why Data Rights Matter (CALP Network) | Institute for Economics & Peace
Ambassador Program | Aspire Leaders Program 2024 | Freshwater Awareness & Conservation Program (The Nature
Conservancy & National Geographic) | Democracy in Sudan (AMEL Project) | AMEL Spring 2025 Training Program

Languages

Arabic (Native) | English (Professional Working Proficiency)
